

CLEVELAND LEAVES
THE WHITE HOUSEPRESIDENT ESTABLISHED AT
GRAY GABLES.

Washington Will Not See Him Again Until Cool Weather, It Is Said—Congressmen Glad to Get Home As Their Work Has Been Finished for a Week.

WASHINGTON, Aug. 29.—The president went to Gray Gables this morning accompanied by Secretary Thurber. He is not likely to return to Washington for some time. Unpleasant reports are becoming more and more prevalent as to his personal habits. Congressmen are glad to go home. Congress was practically adjourned a week ago. Since then nothing had been done save to wait till the President either signed or vetoed the tariff bill or it became a law by the expiration of the time limit.

The President's letter to Congressmen Catchings caused much talk and the adjournment. As has been said, the latter function was comparatively a very tame affair. Washingtonians themselves took little interest in the proceedings. But there were more than enough Pythians and their sympathizers to fill all the available space in the galleries, so an audience was not lacking. The spectators were the most interesting as well as the most interested part of the event.

Unlike the audience made of Washingtonians who have become blasé with seeing many adjournments, the crowd to-day betrayed a keenness of delight and curiosity in everything that was done. One might imagine himself in the Colosseum in the midst of strangers to the place and sport, looking down upon the final struggles of a lot of worn-out gladiators. And at the last moment every one would have had his thumbs turned down.

In the senate there were inquiries for Gorman. There was much disappointment when it was learned that he was not in town. They "allowed" that a man who beat Grover Cleveland in a tariff fight must be a pretty big man. Then they asked for Hill. But he, too, was gone. Palmer was also missing. John Sherman was gone.

No business was done in either house other than to adopt the customary resolution notifying the President that congress was ready to adjourn and to ask if he had any further communications to make. The words "further communications" raised a laugh in the house. When, in accordance with the resolution, the Vice-President appointed Senators Ransom and Manderson, and the speaker selected Messrs. Wilson, Holman and Hepburn to carry the congressional message to the President, a recess was taken by the senate till 1:30 o'clock. A member in the house tried to get a bill passed, but Tom Johnson of Ohio raised the no quorum point and a recess was taken till 1:45. There was no haste, no rush of members to get votes for pet measures. Everything was quiet and sedate as had it been an obituary session.

BATTLE WITH ROBBERS.
Several Shot in a Midnight Fight at
Ohio City, Ohio.

LIMA, Ohio, Aug. 29.—Two robbers at least were shot and several wounded in a fight which took place between the former and a posse of citizens headed by Night Watch Riser at Ohio City, a small town thirty miles west of this city on the Chicago & Erie railroad, last night at midnight. Riser was wounded in the leg and another bullet passed through his cap, cutting a ridge through the flesh on the top of his head. The citizens were aroused by the shooting and gave chase to the gang, overtaking them at the edge of the village, where there was a hot pitched battle. The wounded robbers were carried away by their companions when they were finally driven back by the determined band of citizens, who escaped with three of their party being wounded, Frank Lewis, a lawyer, slightly, and Joseph Lehman, a business man, fatally. The robbers got away with about \$1,000.

REDUCTION NOT FAIR TO THE MEN
Wages Cut More Than the Price of Cars—Mr. Wickes Admits This Much.

CHICAGO, Aug. 29.—Before resuming the examination of Vice-President Wickes of the Pullman company the labor commission listened yesterday to the statements of railroad men about the losses to property incurred by the roads during the recent strike. The first statement was filed by Auditor Chauncey Kelcey. Mr. Kelcey said the road lost \$2,550 through damage done to its cars, \$7,800 from damage to locomotives, \$18,500 for expenses, \$160,006 loss in net earnings and \$100,000 wages. The total loss amounted to \$286,360.

William McFadden, of the law firm of Gardner & McFadden, local representatives of the Lake Shore road, filed a statement showing that the total damage done the Lake Shore property in the city and out of the city amounted to \$5,164.66. Mr. McFadden could not say how much in earnings had been lost during the months of June and July.

General Superintendent Bourbon of the Chicago & Eastern Illinois, read a long report about the financial affairs of the company, giving the earnings of this and last year during the months of June and July. The losses to the road through the strike were \$21,000 in additional expenses caused by the strike, and \$2,377 damage to its property.

John B. Bessler of the Chicago, Burlington & Quincy said that the destruction of property on his road amounted to \$150,000. He could not say about the losses in wages and business, but would try to furnish these figures later.

Charles E. Webb, chief clerk of the bank at Pullman, was called to tell what he knew about the Jennie Curtis case. He said the bank had asked for the rent from Miss Curtis before they knew the father had died. She came to the bank and offered voluntarily to pay the father's rent and her own out of her wages. That was all he could testify to.

F. W. McKee, yardmaster of the Rock Island since Sept. 19 last, testified that he could discharge or hire men. B. B. Ray was known to witness as assistant general yardmaster. McKee had given Ray full power to hire and discharge men without reporting to the yardmaster. It was his duty to report to McKee when he had hired or discharged men and his actions were approved by the yardmaster. A record book of these things was kept privately by Ray. The witness remembered the man reading from the book. It had been claimed that this book was a blacklist, but McKee said that Ray kept it on his own account and called it a "can" book. No one had instructed him to keep it and McKee did not at any time ask him for it. The position held by Ray had been abolished when he was discharged from the company's service. So far as witness knew this book was not kept to record the reasons why men were discharged from the company. Ray had not received a dismissal card so far as McKee knew.

On the stand Mr. Wickes admitted that the wages of the men had been reduced more than the price of cars.

After luncheon Gen. Nelson A. Miles took the stand. He declared he had never said he had broken the backbone of the strike, but he said he had broken the backbone of the opposition to federal troops. The troops did not force men to work at the point of bayonets to his knowledge.

Inspector Hunt testified as to the disturbances in his division during the strike. He said the men were composed of toughs and men who never worked on railroads or anything else. The men arrested for depredations were not railroad men.

CUSTER BATTLE FIELD.
Peculiar Ring Found on the Site of the
Terrible Massacre.

CHALMER, S. D., Aug. 29.—A. J. Williams of Percival, Neb., has found a peculiar ring on the Custer battle field. Engraved around the band are the names of fifteen of the principal battles of the civil war. Most of the names can easily be made out with a magnifying glass. The owner of the ring, Mr. Williams thinks, probably perished in the massacre on the Little Big Horn. Mr. Williams has made every effort to discover any one who would recognize the ring, but without success.

Mexican Smelters to Resume.
EL PASO, Texas, Aug. 29.—In the Mexican Central railway yard in Ciudad Juarez, Mex., were more than 300 cars of silver lead ores waiting for the new tariff bill to go into effect before transferring to the United States. Many Mexican silver mines, running a high per cent in lead, which closed down on account of the Windom ruling, will now be opened up again, and it is thought another smelter will be erected here at an early date.

BOSTON, Mass., Aug. 29.—An application was made yesterday in the Supreme court for a receiver for the Eaton & Stevens Manufacturing company, boots and shoes. PHOENIX, Ari., Aug. 29.—The receiver for the property of the Gile Bend Reservoir and Irrigation company, the Arizona Construction company, and the Peoria Canal company, cognate corporations, sold the same yesterday at public sale for \$900,000. This concludes a long period of litigation and insures the pushing of the enterprise.

Pugilistic Club for Cincinnati.

REVIEWED BY THE PRESIDENT.
Parade of Uniform Rank the Feature of the Encampment.

WASHINGTON, Aug. 29.—The feature of the Pythian encampment was the grand parade of the uniform rank yesterday afternoon. Fifteen thousand knights were in line, marching by state brigades, and the procession was more than two hours passing the Presidential reviewing stand. Pennsylvania avenue was crowded with more than 100,000 people, a large proportion of them visitors from out of the city.

The conclave of the Supreme lodge was called to order by Supreme Chancellor W. W. Blackwell in Builders' Exchange hall at 10 o'clock. Great secrecy was observed and the entrances were carefully guarded. The roll call was answered by delegates from nearly every state and territory. Supreme Chancellor Blackwell and Supreme Keeper of the Record and Seal R. L. C. White read their biennial reports.

The report of the Supreme Keeper of Records and Seal, R. L. C. White, says: "Dec. 31, 1893, the total amount in the treasuries of the grand lodges was \$190,999.10, and the amount in those of the subordinate lodges was \$1,833,443.55. The amount disbursed for relief by subordinate lodges during the years 1893 was \$1,205,135.98, while for the two years 1892 and 1893 it was \$2,379,374.13." NEW YORK, Aug. 29.—Young Griffio, who says he should have got the decision Monday night on his merits (in which all the sporting authorities agree), says he will fight McAuliffe to a finish for not less than \$5,000 a side. McAuliffe said last night that he would accommodate him, and that if the fight is gotten up it will be his last one. The championship of ten years satisfies him, he says.

TOWN OF VESPER IS IN ASHES
Twenty-Three Houses and Several Million
Feet of Lumber Burned.

ST. PAUL, Minn., Aug. 29.—The village of Vesper, sixteen miles south of Marshallfield, Wis., is burnt. Twenty-three dwellings have been destroyed, rendering that many families homeless. The saw mill, planing mill, and 9,000,000 feet of lumber have also burned. The people were powerless to stop the flames. The air is permeated with smoke everywhere. Vesper was a small lumbering village of about 300 inhabitants. Provisions have been sent to the fire sufferers from Marshallfield.

It is impossible to give a correct estimate of the loss, but from the reports received it is believed that \$150,000 will cover it.

MARSHFIELD, Wis., Aug. 29.—A telegram was received here last evening saying that Vesper, a small village fifteen miles east of here, was burning. Heavy forest fires have been raging in the vicinity the last week, and, although the cause is not known, it is believed Vesper shared the fate of Phillips by one of these monster destroyers.

THREATENED BY FOREST FIRES.
Residents of Small Michigan Towns Busy
Fighting the Flames.

SAGINAW, Mich., Aug. 29.—The wind changed to the northeast yesterday and the atmosphere is somewhat cleared of smoke. Reports indicate there is no let up in the sweep of the fires. The forests in every direction are in a mass of flames and the inhabitants of many of the small hamlets and logging and lumber plants in the northern counties have been fighting fires for days. W. F. Stevens of this city lost \$6,000 worth of shingles in Gladwin county last night. Large quantities of hay, fences and crops have been utterly destroyed and every report brings in statements of losses. The Saginaw, Tuscola & Huron railroad company is fighting fire on its lines and a number of large farms were burned over yesterday.

Fight Fire at Harrisville.

HARRISVILLE, Mich., Aug. 29.—Numerous fires in the already half-burned forests which inclose this village on three sides have caused several alarms to be sounded within the last few days. Several farmers near town have been fighting fire constantly for the last week and reports have come in of considerable damage already done to buildings and fences. Many blazes have occurred just at the edge of the village, causing a great deal of excitement, but merchants, laborers, and all hands have turned out promptly and have thus far kept the fires under control. There are some indications of a shower and people are correspondingly happy and hopeful.

Many Farmers Lose Crops.

BAY CITY, Mich., Aug. 29.—Forest fires have been burning in this vicinity for some time past and numerous cases are reported of farmers losing crops, while a great deal of cordwood, timber, etc., has been destroyed. The smoke along the Mackinaw division of the Michigan Central has been so thick that it is impossible for trainmen to distinguish signals the length of a car in front of them and the company has adopted the block system of running trains. Two wrecks have already occurred, owing entirely to the smoke. Navigation on Saginaw Bay at night is carried on with greatest caution.

Brush Fires Near Iron Mountain.

IRON MOUNTAIN, Mich., Aug. 29.—This city has for days past been enveloped by a dense cloud of smoke from brush fires. The damage is slight, as the land for miles around the city is practically denuded of pine of value. This condition of things is causing lumbermen to delay building camps for fear of starting fires where greater damage would be done.

Decisions Touching the New Tariff.

WASHINGTON, Aug. 29.—Secretary Carlisle states on the authority of the decision of the United States Supreme court that imported goods destined for any interior point will be considered as having been "imported" when they arrive at the custom house at the sea board, or, technically speaking, the arrival at the exterior port and not the interior port will govern in determining the time of arrival.

GOOD HUMOR IN SENATE.

Tariff Bickerings Forgotten During the Last Hours of the Session.

WASHINGTON, Aug. 29.—The last day of the second session of the Fifty-third congress was attended by just a score of senators, but a large concourse of people packed the galleries. All political differences and party bickerings were laid aside for the time being and those who were hurling bitter words at each other were laughing and joking in the friendliest possible manner. A message was received from the house announcing the death of Representative G. R. Shaw of Wisconsin. In the absence of the two Wisconsin senators, Mr. White offered the customary resolutions of regret and the Vice-President appointed Senators Mitchell (Wis.), Cullom, Davis, Roach and Kyle to attend the funeral. The committee appointed to call upon the President announced he had no further communications to make to congress. Resolutions of thanks were tendered Vice-President Stevenson and Senator Harris, president pro tem.

When the hands of the clock indicated two minutes of 2, the vice-president rose and announced the adjournment. The announcement was received in silence, and within a few minutes the senate chamber was deserted and quiet.

GOOD MAN IS NEEDED TO WORK A MACHINE

LOCAL DEMOCRATS CONSTRUCT AN A. P. A. BUGABOO.

It is An Attractive Piece of Mechanism But Somebody Must Be Hired to Run It and All the Janesville Leaders Are Exceptionally and Unexplainably Modest.

"Who is going to work the machine?" That's the question the Rock county democratic managers are asking one another. It's the only peg left upon which they can hang a possible hope of success.

Empty dinner pails have replaced the pails burdened with a one-cent tax.

Repealing the "robber tariff" made robbers of thousands of men and robbed others of their jobs; so the bosses can't talk tariff any more.

The roster case drove in another spike and Cleveland's letters did the rest.

Their only hope is now the A. P. A. They are going to "expose 'em." That's what lots of people want. Start a whisper about a secret order

who put him in his nest that he should keep his hands out of partisan politics. Suppose w-a-a-r-r should break out with Patagonia. They'd have to have the "gin'ral" Washington, D. C. or Grover would get so scared that he'd

forget and sign some bill—to cut off a veteran's pension probably.

No, the "gin'ral" can't work the handle.

Then there's Frank Morris. He's too busy. You see he's no longer plain Frank Morris. He's a commodore. His flag flies from the thirty-foot steamer that makes regular trips across the bounding billows at Clear

sort of campaigning a good deal like child's play.

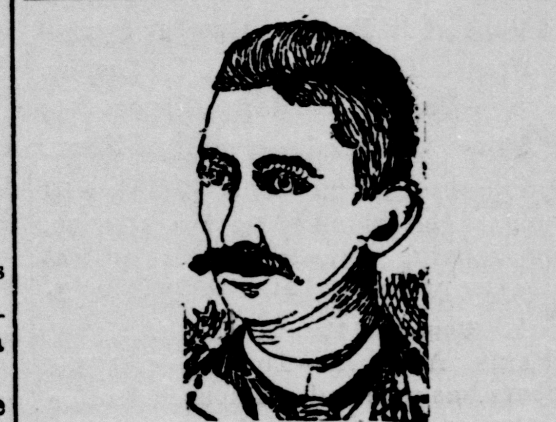

He can't push the handle. R. J. Whitton got to be quite a machinist, running the Lorna, but now he's joined the sages at Washington, and is General Doe's understudy, so he can't do the work. His return might split the base ball vote. No, they had to give him up.

John Windy Hamilton!

Ah! Didn't the managers smile when they thought of him.

A star promoter! Just the man!

They looked the country over in vain. They even wrote to his friend,

the police commissioner out in Oregon, but no John Windy, and disappointment keen followed.

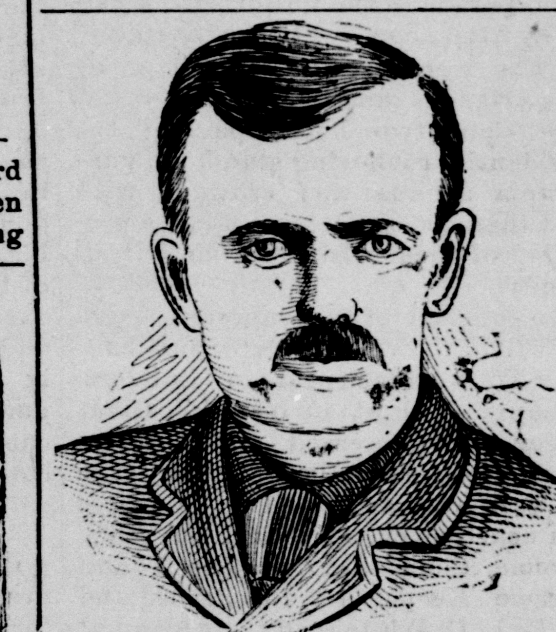

John was a daisy but someone had plucked him. He couldn't turn the handle.

The other wheel horses are all disgruntled more or less. Hon. John

work the handle. But it has to be kept going somehow.

"Will the general feel it his party duty to grasp the lever?"

"No."

"Nor A. O. nor Morris!"

"No."

Somebody must be at the helm; but who?

The prophet looks through one or

MAIN STREET SURE TO BE PAVED.

Only Question Is "Will It Be Two Blocks Or Four?"

Alderman Child is not sleeping with the petition for paving North Main street. While there appears to be great unanimity for the pavement from Milwaukee street north to Prospect avenue, there are many who would like to extend the paving to Fourth avenue bridge.

ALDERMEN PRODDING THE WATER COMPANY

THEY ARE IN EARNEST ABOUT PROCEEDINGS.

Some of Them Propose Building Another Plant But the General Belief Is that Nothing Can Be Gained by Hasty Action—Lighting By the City.

The action of the common council in relation to annulling the franchise of the Janesville water company, forms the topic of general conversation among water consumers. Just how far the common council can proceed in the matter remains to be developed. Consumers insist that it is the duty of the council to protect the interests of the people who consume the water, and that if rules and regulations have been adopted by the company that are not in accordance with their franchise, it is the duty of the common council to declare the same null and void, and to compel the water company to deal fairly. Aldermen who have expressed themselves in regard to the matter appear in earnest in this movement to declare the franchise void, insisting that while the company's rules may stand the scrutiny of the courts, the company has violated its franchise in not extending the water mains as ordered. Others favor the purchase of the plant by the city, claiming that this would be economy; that with the city owning the plant, the revenue would meet the interest on the costs, and soon provide a fund for the payment of the bonds issued for the franchise.

City Could Run Two Plants.

Alderman Smith and Baines think the city could operate an electric light plant in connection with the water works at a greatly reduced cost, thus reducing the cost of lighting the entire city with electric light. It is hardly probable, however, that any agreement as to the price to be paid by the city will ever be reached. The original cost as given to the city appears to stagger everyone at all acquainted with such a plant. To make the plant perfect considerable rebuilding would be necessary in the placing of valves, which were neglected in the construction. Considering these points and the cost, and many people insist that it would be better to endure a little longer the perplexities of the present service until the city can construct a plant of its own. One thing is certain, that the fire and water committee will not put the resolution of the council in the pigeon hole, but will push the investigation as far as it is in their power to push it, and a better understanding may be had between the people who consume water and the water works management.

40 YEARS THE STANDARD

HICKOK CAN'T HANDLE DIRECTUM.

Comparison of His Work and Kelly's—Ethel A. Wins In Fast Time.

People who saw Directum exhibited at Chicago last week were disgusted and more than one remarked that "they would like to see John Kelly try him again." That remark was natural for Hickok warmed up the phenomenon in 2:13. In half an hour he went another mile in 2:08 and on the final trial against time, with all the "agonies" of several scores to get the flyer's "right" and a runner under George Starr's guidance trotted a mile in 2:10 while the audience groaned. Nobody ever made Directum go except Kelly. Hickok has had him all the season and if the great stallion is not in condition it is Hickok's fault, for Kelly had him in shape at this time last year. Some of the records that Kelly gave him last year are:

The fastest stallion work, 2:05 1/2.

The fastest four year old colt, 2:05 1/2.

The fastest heat ever trotted, 2:05 1/2.

The fastest stallion race meet, 2:05 1/2.

The fastest heat in a race for four-year-old, 2:05 1/2.

The fastest heat in a race for four-year-old, 2:05 1/2.

The fastest second heat in a race, 2:07 1/2.

The fastest third heat in a race, 2:05 1/2.

The fastest fourth heat in a race, 2:08.

The fastest fifth heat in a race (equalled by Alix), 2:09 1/2.

The fastest three heat race, 2:10 1/2, 2:07 1/2, 2:08 1/2.

The fastest four heat race, 2:09 1/2, 2:08 1/2, 2:07 1/2, 2:08.

The fastest five heat race, 2:11, 2:12 1/2, 2:10, 2:10 1/2, 2:09 1/2.

Those show what Kelly did with the black, and what the horse can do in comparison. Hickok's mile advertised "to be very fast" in 2:10 with a running mate, is disappointing.

"That little mare is peaches and cream," remarked Col. Y. R. Hardin, the celebrated turf correspondent as John Conley's grey daughter of Adrian Wilkes, Ethel A., the phenomenal three-year old paced under the Janesville wire in 2:11 1/2.

The colonel was right. Ethel has fulfilled his judgment at every turn she makes. Yesterday she defeated a field of eight at Fort Wayne, including such cracks as Rokeby, Quiz and Adamant, the best time being 2:11 1/2.

Independence, Iowa, people are seeing nearly the same field of horses race as Janesville people saw last June and July. In the three-year-old class yesterday, Sphynxetta, handled by Spear, Feura, Colby's colt, Marks Maid, handled by Darling, and others that were here. Ella defeated Sphynxetta in 2:15. In the 2:35 class Spear had Ben Gaines, who was here in June in 2:26, but Belmont could go in 2:18 1/2 and got the money. Noble St. Cloud, the trained trotter who was exhibited here was the tale ender, and Oh So LaCrosse Jr. and Cecil Wilkes, all of whom were here fared but little better. In the 2:45 class, Parapet, Anthony and Robert Lee, all of whom were here, competed but Vyzant got two heats to Robert Lee's one and the race was postponed, the best time being 2:18 1/2, the heat that Lee won.

Rocker, the pacer who won the Janesville free for all in 2:12 got the money in the 2:09 pace at the New Harlem track at Chicago yesterday in 2:16 1/2, defeating May Marshall, J. H. L., Kissell's Dallas and Beulah, John Kelly's horse. The track, which was built for running races was too soft for harness animals.

CRAZY MAN CAUGHT BY POLICE.

Asked Chief Acheson For a Ticket To Hamburg, Germany.

John Albert, a German, staggered Chief Acheson this morning by asking him for a ticket to Hamburg, Germany.

The queerness of the request led the chief to think that the man was insane, which proved to be true. His clothing bore his name, and he admitted that he escaped from the asylum at Dunning, Ill. He will be held until the Illinois authorities are notified. For two days, he says, he has had no food.

TAX ON PLAYING CARDS PAID.

Local Dealers Send In Their Cash But Do Not Get Stamps.

Playing cards were advanced two cents a pack this morning by Janesville dealers. The advance was made to meet the tax put upon playing cards by the new democratic tariff bill.

"We had to send in five dollars this morning for stamps to put on our cards," said a local grocer this morning, "and we only carry a small stock compared with the regular dealers. All cards, no matter what quality, are taxed two cents a pack."

If the revenue rules are enforced strictly a playing card famine is possible. No stamps have been sent out from Washington yet and it is a misdeed punishable by a fine of fifty dollars for any one to sell cards unless they bear the government two-cent stamp. The stamp have not been printed yet, but it is thought that the clerks in the bureau of printing and engraving at Washington were kept up all night to hurry the supply forward.

BEYOND THIS VALE OF CARE.

Mrs. Hamilton H. West.

Mrs. Hamilton H. West, daughter of Rev. Hiram Foote, the well known Congregational minister, died in Rockford, August 21. Mrs. West was born December 15, 1849, in Janesville, and was graduated from the Rockford seminary in 1870. She moved to Rockford with her parents in 1872, and was united in marriage to Mr. West in 1876. Two children, Clarence, 13, and Edna, 8, survive. Miss Kittie Foote of Rockford, is a sister, Mrs. E. M. Foote the mother, and the brothers living are Dr. Foote, of Cherry Valley, Dr. Charles E. of Cumberland, Hiram of Minneapolis, and Albert of Milwaukee.

In former years, before disease had fastened upon her, Mrs. West was one of the belles of Rockford, and students at the seminary during the years in which she attended will remember her as one of the most beautiful and vivacious members of the institution. She was a woman of great culture, and her excellent education with her natural endowments of grace and beauty of person, and a cheerful and buoyant disposition made hers promise to be a happy and unclouded life indeed.

The funeral services were held in Rockford Thursday, the attendance being very large.

Miller.

The home of Mr. and Mrs. George Miller, Eastern avenue, was suddenly darkened by the messenger of death, that came to their little four year old child at an early hour this morning. The little one was taken sick yesterday afternoon. In the evening the doctor was called, and it was found the child was suffering from an attack of malignant scarlet fever. The little one grew worse during the night, and died at the dawn of day. The remains were buried in Oak Hill this afternoon.

Louise Fellows.

Louise Fellows, the two year old daughter of Mr. and Mrs. Frank A. Fellows, 216 North Main street, died at 10 o'clock this morning, of inflammation of the bowels. The little one had been sick for some time, life hanging by a slender thread for several days. Funeral arrangements will be announced later.

WHEN Miss Lou Griford returned
from a ride last evening she found
forty young friends awaiting her.
The surprise was complete and was
more and more enjoyed as the evening
passed. Progressive euchre was in-
cluded in until a late hour. Miss
Alice Harris and Frank Hincley car-
ried off the first prizes and Miss
Maggie Kemmett and John Denning
the booby prizes. Refreshments were
served at midnight and it was long
after midnight when the party broke
up.

TRINITY church people are making
arrangements for a grand jubilee on
the occasion of the fiftieth anniver-
sary of their church organization
which occurs the last of September.
One of the features of the jubilee will
be the dedication of the new rectory,
which will be completed by that time.
All those living who took part in for-
ming the society fifty years ago will
be invited to be present, and the parish-
ioners anticipate a joyous time.

MEMBERS of the trades' unions are
talking a good deal about whether or
not the various factories about town
will close on Labor Day. "It is a leg-
al holiday," said one of them, "and
was set apart for the laboring men.
None of the factories are running regu-
larly, and they could just as well
shut down as not."

WALTER SANGER, the famous Mil-
waukee bicycle rider, will make a mile

nesday. He and Warner will also ride
against the state half mile record of
1:11 made by Andrae and Schmitz in
Appleton. The Edgerton hose teams,
the champions of the state, will
run against their own record.

CLOUDS OF SMOKE HID THE CITY TODAY

DENSE ENOUGH TO OBSCURE
THE SUN.

Not Since 1871 Have Janesville People
Had Such An Experience—Victor
P. Richardson and His Brother
Have An Experience On a Lake
Michigan Steamer.

Not in twenty years has the city
been so enveloped in smoke as to-day.
The smoke was dense enough at times
to obscure the sun, and at times was
almost blinding to the eyes. People
out of doors complained that their
eyes smarted on account of the clouds
that filled the air. Such a visitation
is rare, but old settlers remember that
the city was similarly enveloped dur-
ing the great forest fires in
1781. Reports from the lake state
that vesselmen find navigation very
difficult and dangerous, as the smoke
on the lake is so dense that pilots can-
not see the length of their vessels,
and tug men cannot get out of the
harbors to assist vessels in making
port.

Justice M. P. Richardson and V. P.
Richardson returned from Sault Ste
Marie by steamer last night. Coming
down Lake Michigan, they say, the
boats are often hidden in smoke so
dense that passengers can hardly see
to read. The boat on which they re-
turned was five hours late in reaching
Chicago.

Frank H. Jackman and Fred S.
Sheldon, who are on board the Mani-
toul, bound for Buffalo and return,
are also having reminders of the for-
est fires.

The pineries on the Michigan penin-
sula are all on fire, as well as forests
on the Wisconsin peninsula and across
the lake in Michigan. Nothing but a
heavy rain storm will purify the air.
At night the smoke is even more ap-
parent than by day, the electric lights
looking as if half extinguished by a
fog.

SPENT A MERRY EVENING.

One Hundred Guests Entertained at the
School For Blind.

Through lanes of light, guests
strolled about the grounds of
the School for the Blind
last evening. A 6 o'clock
tea was given by Mrs. L. S. Pease,
Mrs. M. D. Jones and Miss Lizzie Cur-
tis, the guests numbering five score.
The repast was served at small tables
in the assembly room which was
beautified with flowers and foliage.

A cluster of blossoms made a center
piece for each table and in the center
of the room was a table banked with
fruit. After the refreshments had
been discussed a trial of "bookish-
ness" was proposed. Twenty
devices suggesting the names of
authors were produced and the guests
racked their brains over the task of
identification for half an hour. Clar-
ence L. Clark, W. S. Jeffris and Miss
Bertha Sayles made a score of ninety
out of a possible hundred and drew
outs for the first prize, Colonel Clark
winning. The booby prize was claimed
by Mrs. L. B. Reynolds and J. C. Echlin,
but was won by Mr. Echlin, he receiv-
ing a handsomely illustrated copy of
Mother Goose's Tales. The company
dispersed about 10 o'clock.

FOUNTAIN SEEKS A VINDICATION.

Just Out of Jail He Is Looking for the Man
Who Slandered Him.

Joe Fountain, one of the drunks
arrested by Patrolman McGinley, is
out of jail, and is looking for the
man who accused him of stealing a
watch. Fountain is earnest in his
hunt, so earnest in fact that he pre-
pared a paper which he insists his ac-
cuser must sign, or confront trouble.
Fountain met the chief of police this
morning, and gave him the paper,
which reads as follows:

"Stolen Watch found—to the sit-
zen & the Reader of the Recorder I
found my Watch one of my friends
Had it for me I gave it to him. My
Negroes Mr. Fountain is innocent
of the charge against him He Ooping
that He will excuse me."

Fountain had not been out long when
he met the chief of police, but had
succeeded in storing away consider-
able booze.

MEAT STUCK IN HER THROAT

Miss Ella Marion Nearly Strangled By a
Peculiar Mischance Last Evening.

A contraction in her throat caused
by a drink of lye in childhood nearly
caused Miss Ella Marion's death last
evening. Miss Marion lives on South
Jackson street and was at supper
when the difficulty mani-
fested itself. A bit of meat
which she swallowed stuck at the
point where her esophagus is drawn
together and would not go down.

For five minutes a doctor worked at
the obstruction but could not fish it
up. A flexible probe was then intro-
duced and the bit of meat was pushed
down into the stomach.

While Miss Marion was a little girl
her mother says she swallowed some
lye. Her mouth and throat were ter-
ribly burned and when her throat
healed one spot showed a marked re-
duction in the size of the opening.
This was the cause of last night's dif-
ficulty.

NOT A TRAMP IN THE JAIL TODAY

Sheriff Bear Discharges the Last of His
Family of Vagrants.

Sheriff Bear and Turnkey Gruffy
breathed an air of relief this morn-
ing when they opened the doors in the
north corridor of the jail and dis-
charged the last prisoner confined in
that department.

"It is the second time the north side
has been without a prisoner since I
took possession of the jail, nearly two
years ago," said the sheriff. "We use
the north side exclusively for tramps
and drunks, and sometimes it is
crowded full of this class. It is quite
a relief at this time to have the jail
empty, as we are going to thoroughly
clean and disinfect the building and
it gives us a good opportunity to do
it."

PYTHIANS WON'T GO TO EAU CLAIRE

Janesville Lodge Not Likely to Send Any-
body to George B. Shaw's Funeral.

Janesville Knights of Pythias have
been invited by Grand Chancellor Cra-
hen, of Beloit, to attend the funeral
of Congressman George B. Shaw, at
Eau Claire to-morrow. Congressman
Shaw was an honored member of the
Pythian order, not only in Wisconsin,
but of the supreme lodge, he having
been supreme chancellor of that body,
and twice elected as grand representa-
tive of the state. Many of the Janes-
ville Pythians are now out of the city,
and it is very doubtful if any of the
local members will be in attendance
at the funeral.

JANESVILLE BRICKS DELAYED.

O. L. DeForest Will Have Samples Here in
Two Weeks More.

O. L. De Forest has been disappoint-
ed in failing to receive his sample
bricks from St. Louis. He got word
to-day, however, that the clay which
he sent would be put in a kiln Friday,
and that bricks would be here in two
weeks. There has been complete
stagnation of the brick business, and
few kilns have been running, hence
the delay. The clay sent by Mr.
De Forest is pronounced the finest
ever seen in St. Louis.

FRED GUSTHEIMER WADS HIM-
SELF WITH THE WEED.

Playing In His Father's Leaf Field He
Follows the Example of a Hired
Man—Experiment Nearly Proves
Fatal—Sufferer Twitches and Jerks
Convulsively.

Jerking and twitching like a victim
of St. Vitus' dance Freddie Gustheimer
was found last night. He lay on the
barn floor at the Gustheimer farm just
north of the city. His face was drawn
and colorless and he was too weak to
do more than move.

"Freddie is sick," said Carl Gus-
theimer running into the house.

Mr. and Mrs. Gustheimer followed
him out and found the boy in an
alarming condition. He was motion-
less except for the spasmodic twitch-
ing. A moment later he seemed to
be attacked by convulsions and
writhe about the floor in agony.

The case was beyond the reach of
domestic remedies and a messenger
was sent to the city for Dr. E. F.
Woods. When the doctor arrived the
boy was in desperate shape. He had
grown weaker and the jerking of the
muscles was constant although less
violent. Seeing that he had a case of
poisoning to deal with Dr. Woods ques-
tioned Carl sharply. The youngster
could speak no English but a brief
examination in German drew from him
the fact that he and his brother had
been eating green tobacco. They had
spent the afternoon in the tobacco
field and the older boy had chewed
and swallowed a quantity of the gum-
my leaves, getting the idea from a
hired man whom they saw chew a
strip of cured leaf found in one of the
sheds. Emetics and antidotes were
applied and recovery is now believed
to be probable.

SOMETHING ABOUT SILKS.

The Best China and India Silks Come From Lyons.

All the best china and india silks, so called, come from Lyons. In fact, there is no sort of silk tissue not made there—and better made there than anywhere else. Damask, forerunner of brocade, came from Damascus. Indeed there is a flavor and fragrance of the east through all the bead roll of silken stuffs.

Designing silks is something that employs and pays well for much of the best artistic talent in France. A pattern that takes means fortune to the mill that makes it. Each house has its own pattern makers and guards jealously the fruit of their labors.

A pattern cannot be protected by letters patent. A large buyer may, though, secure from the maker exclusive control of

CHANGEABLE TAFFETA GOWN.

the sorts he buys. It behooves him to buy carefully, prayerfully. The verdict of a petty jury is not more uncertain than that of the silk wearing public. Shrewd advertising, good display, may do something toward influencing it, but the pattern that toward the close of the season is voluminous in stock is at once hewed down in price and cast upon the bargain counter.

Each year there are new surfaces in variety, but all of them resolve themselves into the original elementary combinations possible to the handloom. Moire has its season when it is unseasonable, stripes come and go, but silk goes on forever. The use of it increases yearly, and it is safe to say that the consumption will double in the next 20 years.

Yet the market for raw silk is merely "steady." China, Japan and India are such inexhaustible storehouses of it that they can send us twice our needs without materially affecting the price.

There have been sporadic efforts to raise silk in the United States, but so far we have produced so small an amount in comparison that it is not worth mentioning.

The sketch shows a gown of rose and green changeable taffeta, trimmed with white lace, green mousseline de soie and arrow jet passementerie.

JUDIC CHOLLET.

A Disputed Case.

Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others can not. Only a specialist of years of experience can tell this. Professor Birkholz, the world-renowned German specialist of the Masonic Temple, Chicago, who those who desire a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment so necessary to your existence, and if we find that the follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birkholz, 1011 Masonic Temple, Chicago, Ill.

Hand this notice to any first class druggist and he will get the Remedy for you at once, if he has not got it in stock.

The Human Voice.

One's surprise at the fact that no two persons' voices are perfectly alike ceases when one is informed by an authority on the subject that, though there are only nine perfect tones in the human voice, there are the astounding number of 17,592,186,044,415 different sounds. Of these, 14 direct muscles produce 16,383, and 30 indirect muscles produce 173,741,823, while all in co-operation produce the total given above.

Avoiding Pain and Peril.

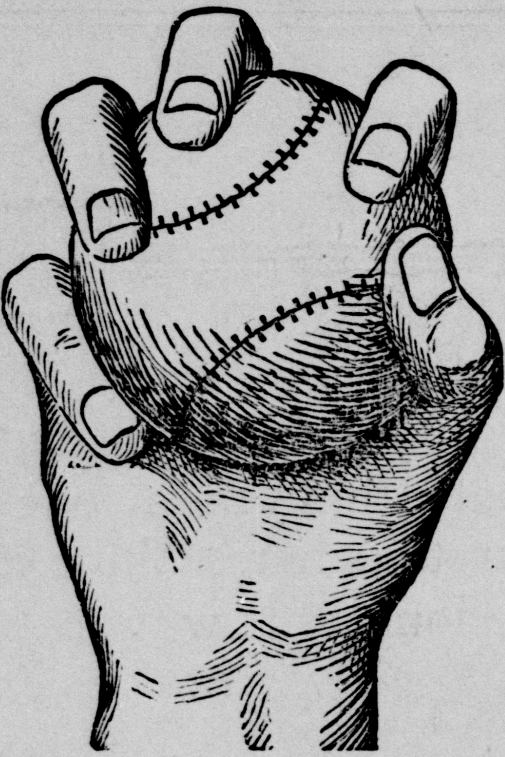

Defensive measures against the foe are ever adopted by a wise commander. You can be commander of the situation and strike a decisive blow at the start at that dangerous and relentless enemy, rheumatism, if attacked by it, by resorting in time to Hostetter's Stomach Bitters, which checks permanently the progress of a malady among the most obstinate, painful and possibly dangerous, against which medical skill and the resources of materia medica are arrayed. No evidence is more concurrent and convincing than that which proves that the Bitters neutralizes the rheumatic poison and checks its farther development in the system. For malaria and kidney trouble, dyspepsia, want of vitality, nervousness, liver complaint and constipation, Hostetter's Stomach Bitters is the leading remedy.

THE above is a correct representation of the celebrated "Poole" overcoat. They come in Meltons and Kerseys in blue and black. A long cut sack coat, a very nobby cut.

THIS represents the "PADDOCK" a coat made in Kersey or Melton, in blue or black. A very handsome coat, and very low in price. We have an elegant assortment.

THE "CHESTERFIELD" is made up in Kerseys and Friezes, cut extremely long, with wide velvet collars, circular pockets and wide cuffs. Truly a gentleman's coat.
